OCCUPATIONAL HEALTH AND SAFETY ON MARINE VESSELS

Company's goal:

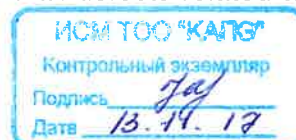

- *Our Company's goal is to provide high-quality design, engineering and consultancy services, analytical works in environmental protection and environmental safety.*
- *Provision of safe vessels operation and of safe labour conditions*
- *Identification of risks and opportunities for which it is necessary to take actions in the interests of the parties*
- *Assessment of identified aspects and risks for vessels, personnel and environment, provide an appropriate protection*
- *Continuous improvement of onshore and offshore personnel skills related to the safety management system, including preparedness for emergencies related to both safety and environmental protection*

To achieve this Goal, the Company has following tasks:

- *compliance with legislation of the Republic of Kazakhstan;*
- *compliance with the requirements of legislation of the state in which Company is operating;*
- *provision of safety during operations, prevention of emergency situations;*
- *prevention of personnel health damage;*
- *minimization of negative impact from the Company's activity on environment, environmental pollution.*
- *compliance with obligatory standards and rules related to safe operation of vessels and environmental protection.*

We undertake a number of obligations that apply to employees of all KAPE LLC departments (offices, branches, laboratories and research vessels), as well as to subcontractors and partners:

- provide unbiased assessments of environmental components and conditions of production activities;
- provide customers and state agencies with objective information on the impact of industrial facilities on the environment and public health;
- provide customers with the most secure technology and environmental options when solving production and environmental issues;
- develop and promote the introduction of new - green, non-destructive technologies of research of the environment components;
- implement and use in their work the up-to-date international personnel occupational safety and safety requirements and procedures;
- optimize all IMS processes, annually confirm certification for integrated management system, and compliance of laboratories to requirements of ST RK ISO/IEC 17025, Greenhouse gas validation and verification body to requirements of ST RK ISO 14065;
- minimize the negative impact of company's production operations on the environment - reducing the ecological footprint;
- high quality, objectivity and reliability of analytical studies;
- prevent emergency situations by provision with safe work place and participation in STOP Observation Program to report on unsafe actions and labour conditions, and all defects related to HSE;

- annual approval of certification and compliance with ISMC and IMO VPPF to provide safe operation of vessels and prevention of pollution, and ILOC “On labour in Maritime Industry” (KTMS, 2006)

"KAPE" LLC implements this Policy in the framework of obligatory implementation of environmental and health and safety legislation of the Republic of Kazakhstan, and of those states, where Company operates and in the course of the best practice realization:

- application of current methods, technologies and new scientific developments, introduction of risk-oriented thinking;
- provision of feedback from customers and analysis of this communication results;
- provision of conditions to improve environmental values of production, health, and safety of KAPE LLC personnel;
- increasing the efficiency of company resources use;
- participation of personnel in environmental protection activity in offices, field surveys, onshore and offshore;
- raising the awareness and responsibility of KAPE LLP personnel, laboratories, sea vessels, subcontractors on safety, health, and environmental issues

Each employee of the Company is responsible for the compliance with incorporated standards, requirements of legislation, codes and standards of HSE in order to prevent hazard to health, property, and environment.

KAPE LLC in practice successfully implements and develops the commitments and principles of this Policy. KAPE LLC is the initiator of the development and implementation of a number of environmental programs and projects at the republican level, is open to cooperation with government, international and non-governmental organizations in order to improve the environmental situation in the Republic of Kazakhstan and neighboring countries.

General Director

V.A. Skolsky
